

# Using E-Plan to Submit Tier II

- Mathew Marshall
- E-Plan State Tier2  
Coordinator

## *SARA Title III*

- Information required by the Federal Emergency Planning and Community Right to Know Act, October 17, 1986, also known as Title III of the Superfund Amendments and Reauthorization Act (SARA).

•

40 CFR Part  
370.10  
Who must  
comply with  
the hazardous  
chemical  
reporting  
requirements  
?

(a) You must report if OSHA requires your facility to prepare or have available MSDS (SDS) for a hazardous chemical and if either of the following conditions is met:

- (1) An **EHS** is present at your facility at any one time in an amount equal to or greater than **500 pounds** (227 kg—approximately 55 gallons) or TPQ.
- (2) **Non-EHS** is present at your facility at any one time in an amount equal to or greater than **10,000 pounds** (or 4,540 kg).

**\*\*\*Check with the State, LEPC and Fire Department for different amounts**

# Updates for 2022!

- 2 New EHS Chemicals (List of Lists)
  - Chlordane, alpha isomer (CAS: 5103719, TPQ 500/1000)
  - Chlordane, gamma isomer (CAS: 5103742, TPQ 500/1000)
- NAICS 2022
  - 2017 NAICS to 2022 NAICS suggestion included in validations
- FL Payment Redirect Link option if Facility is TRI only
- Error/Warning Messages in each page (except Facility and Chemical Info Page)
- State specific update for FY 2022
- Delete only selected Contact Type if a contact associated with multiple facilities and/or contact type.

Owners

# Welcome to *E-Plan's Online Tier II Reporting System*

This easy E-Plan online reporting system will allow you to create a report you can submit to your state to meet their requirement for filing of (SARA Title III) Tier II Emergency and Hazardous Chemical Inventory Reports. This system is for Tier II filing organizations to file their Tier II reports to the State each year. However, filing Tier II report via E-Plan may not fulfill the mandate per your state SERC and/or county LEPC and local fire department. Contact your State and County officials to see if they accept E-Plan as a form of electronic filing.

If you have comments or questions, please use the [Contact Us](#) button on any E-Plan website page.

## Important Notes

1. The "**2022 filing option**" will be available for use in E-Plan on **January 1, 2023**. Tier II reports due on March 1, 2023 should reflect chemical inventories for the previous calendar year January 1 - December 31, 2022
2. For reporting year 2022, **UT Dallas** institutes **an administrative charge** for organizations that use E-Plan for creating/filing online Tier II reports. Please look at the **list** to see if a charge for creating/filing applies to each facility. Detailed instructions including how and where to pay online payment are available. Please view this step-by-step **guide**.
3. For the 2022 reporting year, 11 States (i.e., **Alabama, Alaska, Florida, Georgia, Iowa, Mississippi, Montana, New York, North Carolina, South Carolina, and Tennessee**) and several Counties (i.e., **Warren County (OH), Chesapeake City (VA), Hopewell City (VA), Patrick County (VA), Pittsylvania County (VA), Richmond City (VA), Smyth County (VA), Virginia Beach City (VA), and Waynesboro City (VA)**) accept E-Plan as an electronic form of Tier II reports.
4. If your State SERC and/or County LEPC's accept Tier2 Submit such as .t2s or Tier2 zip file electronically, you can create and export data via E-Plan. Please **Contact Us** to ask a question or report a problem.
5. Please refer to your state's web site and the **EPA's State Tier II Reporting Requirements and Procedures** for submission details.
6. E-Plan online Tier II training video. Click **here** to watch (Jan 25, 2022).

# Submit Facility Information

## Notes:

- 1) Select the Facilities which you would like to submit to the E-Plan database. Once you submit, these facilities and their information will be available to the First Responders through the E-Plan system.
- 2) If you have already filed the Facility information with E-Plan (status shows as Filed) and make any further changes to the Facility/Contact/Chemical information, you DO NOT have to re-upload the information. All changes are automatically available to the First Responders and the State officials. However, you will not get a confirmation email for the changes. To print the changed information, click on Print PDF button
- 3) The selection box will not be shown if **(1) A facility is linked with an invoice, (2) Filing Status is "Filed" or (3) Validation status is "Not Pass."**  
**To complete filing for a facility already linked to an invoice, please click the "Invoice for 2022 " tab above.**
- 4) Facilities in **Florida**: Before filling out your Consolidated Annual Registration Form, please have available your credit card information.

Questions?

The correct way to report a mixture or a pure chemical is to report what the SDS is for. For example, if the SDS is for the sulfuric acid battery, then report it as is (mixture), then the facility should check off the box that says “EHS” and write it sulfuric acid, and the amount present in the batteries. So the facility would be checking off all the hazards on the SDS.

If the facility also has sulfuric acid in pure form, it is best to advise them to report it in the “pure” chemical section.

In order to determine if they have to report, since sulfuric acid is an EHS, the facility would be to aggregate the amount of sulfuric acid present in pure form with those amount present in mixtures, such as batteries, and other mixtures.

Btw, we are going to post a cross-walk of the old and the new physical and health hazards on our website hopefully today.
